05 Industry Oil
Series

Professional Lubricant Company

Profile

Combining production, research and development, sales and marketing as well as services

Product &Service

High-level research and development capability, and adapts to market changes to develop and manufacture a variety of leading products

Quality

Follow the ISO9001 quality production system. Long-term partnerships with internationally-renowned companies

Professional Skills

Raw oil reservation exceeding 2,000 tons. professional OEM services to both domestic & international customers

AUSTERE

**Synthetic Engine
Series**

AUSTERE

**High-performing
Fully Synthetic
Engine Oil**

SAE 0W-20 API SP GF-6/C5
SAE 0W-40 API SP A5/B5 C5

*Molecular shield oil film technology to reduce fuel consumption

*Special anti-wear repair agent to protect the engine and reduce wear

*High temperature resistant technology of aero- engine to sustain sufficient power and protect the engine

High-performing Synthetic Engine Oil

5W-30 API SP GF-6/C5

5W-40 API SP C3

5W-30 API SN GF-5

- *High-performing compound base oil
- *High temperature resistant technology of aero-engine
- *Unique formula of low-phosphorus and low-sulfur to protect the three-way catalytic converter
- *Special anti-wear repair agent to protect the engine and reduce wear
- *Compatibility with gasoline engines of China V and below of the American standard

High-performing Gasoline Engine Oil

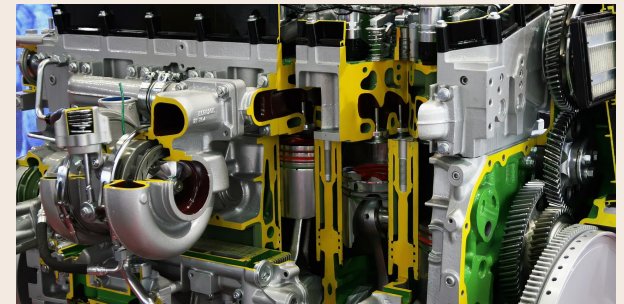

10W-30 API SN GF-5
10W-40 API SN A5/B5 C3
10W-30 API SL GF-3
10W-40 API SL GF-3

Properties:

High-performing compound
base oil
Excellent high-temperature
antioxidant property
Superior cleaning capability
Superb antioxidant property

Compatibility with gasoline
engines of China IV and
below of the American
standard

AUSTERE

**Diesel Engine Oil
Series**

Heavy Duty Diesel Engine Oil

Engine Protection

Specifically designed for high-mileage engine tuning, offering total protection and reducing carbon deposits

Fuel Efficiency

Formula optimized to reduce fuel consumption, boost engine power, and conserve energy effectively

Wear Resistance

Excellent wear protection, minimizing cold-start and low-temperature wear, extending engine life

10W-30/40 API CK-4 ACEA E9-16

15W-40 API CI-4 ACEA E7-16

20W-50 API CI-4 ACEA E7-16

15W-40 CH-4 API ACEA E4-12

20W-50 CH-4 API ACEA E4-12

Sizes:

4L, 18L, 200L

Heavy Duty Diesel Engine Oil

Compatibility

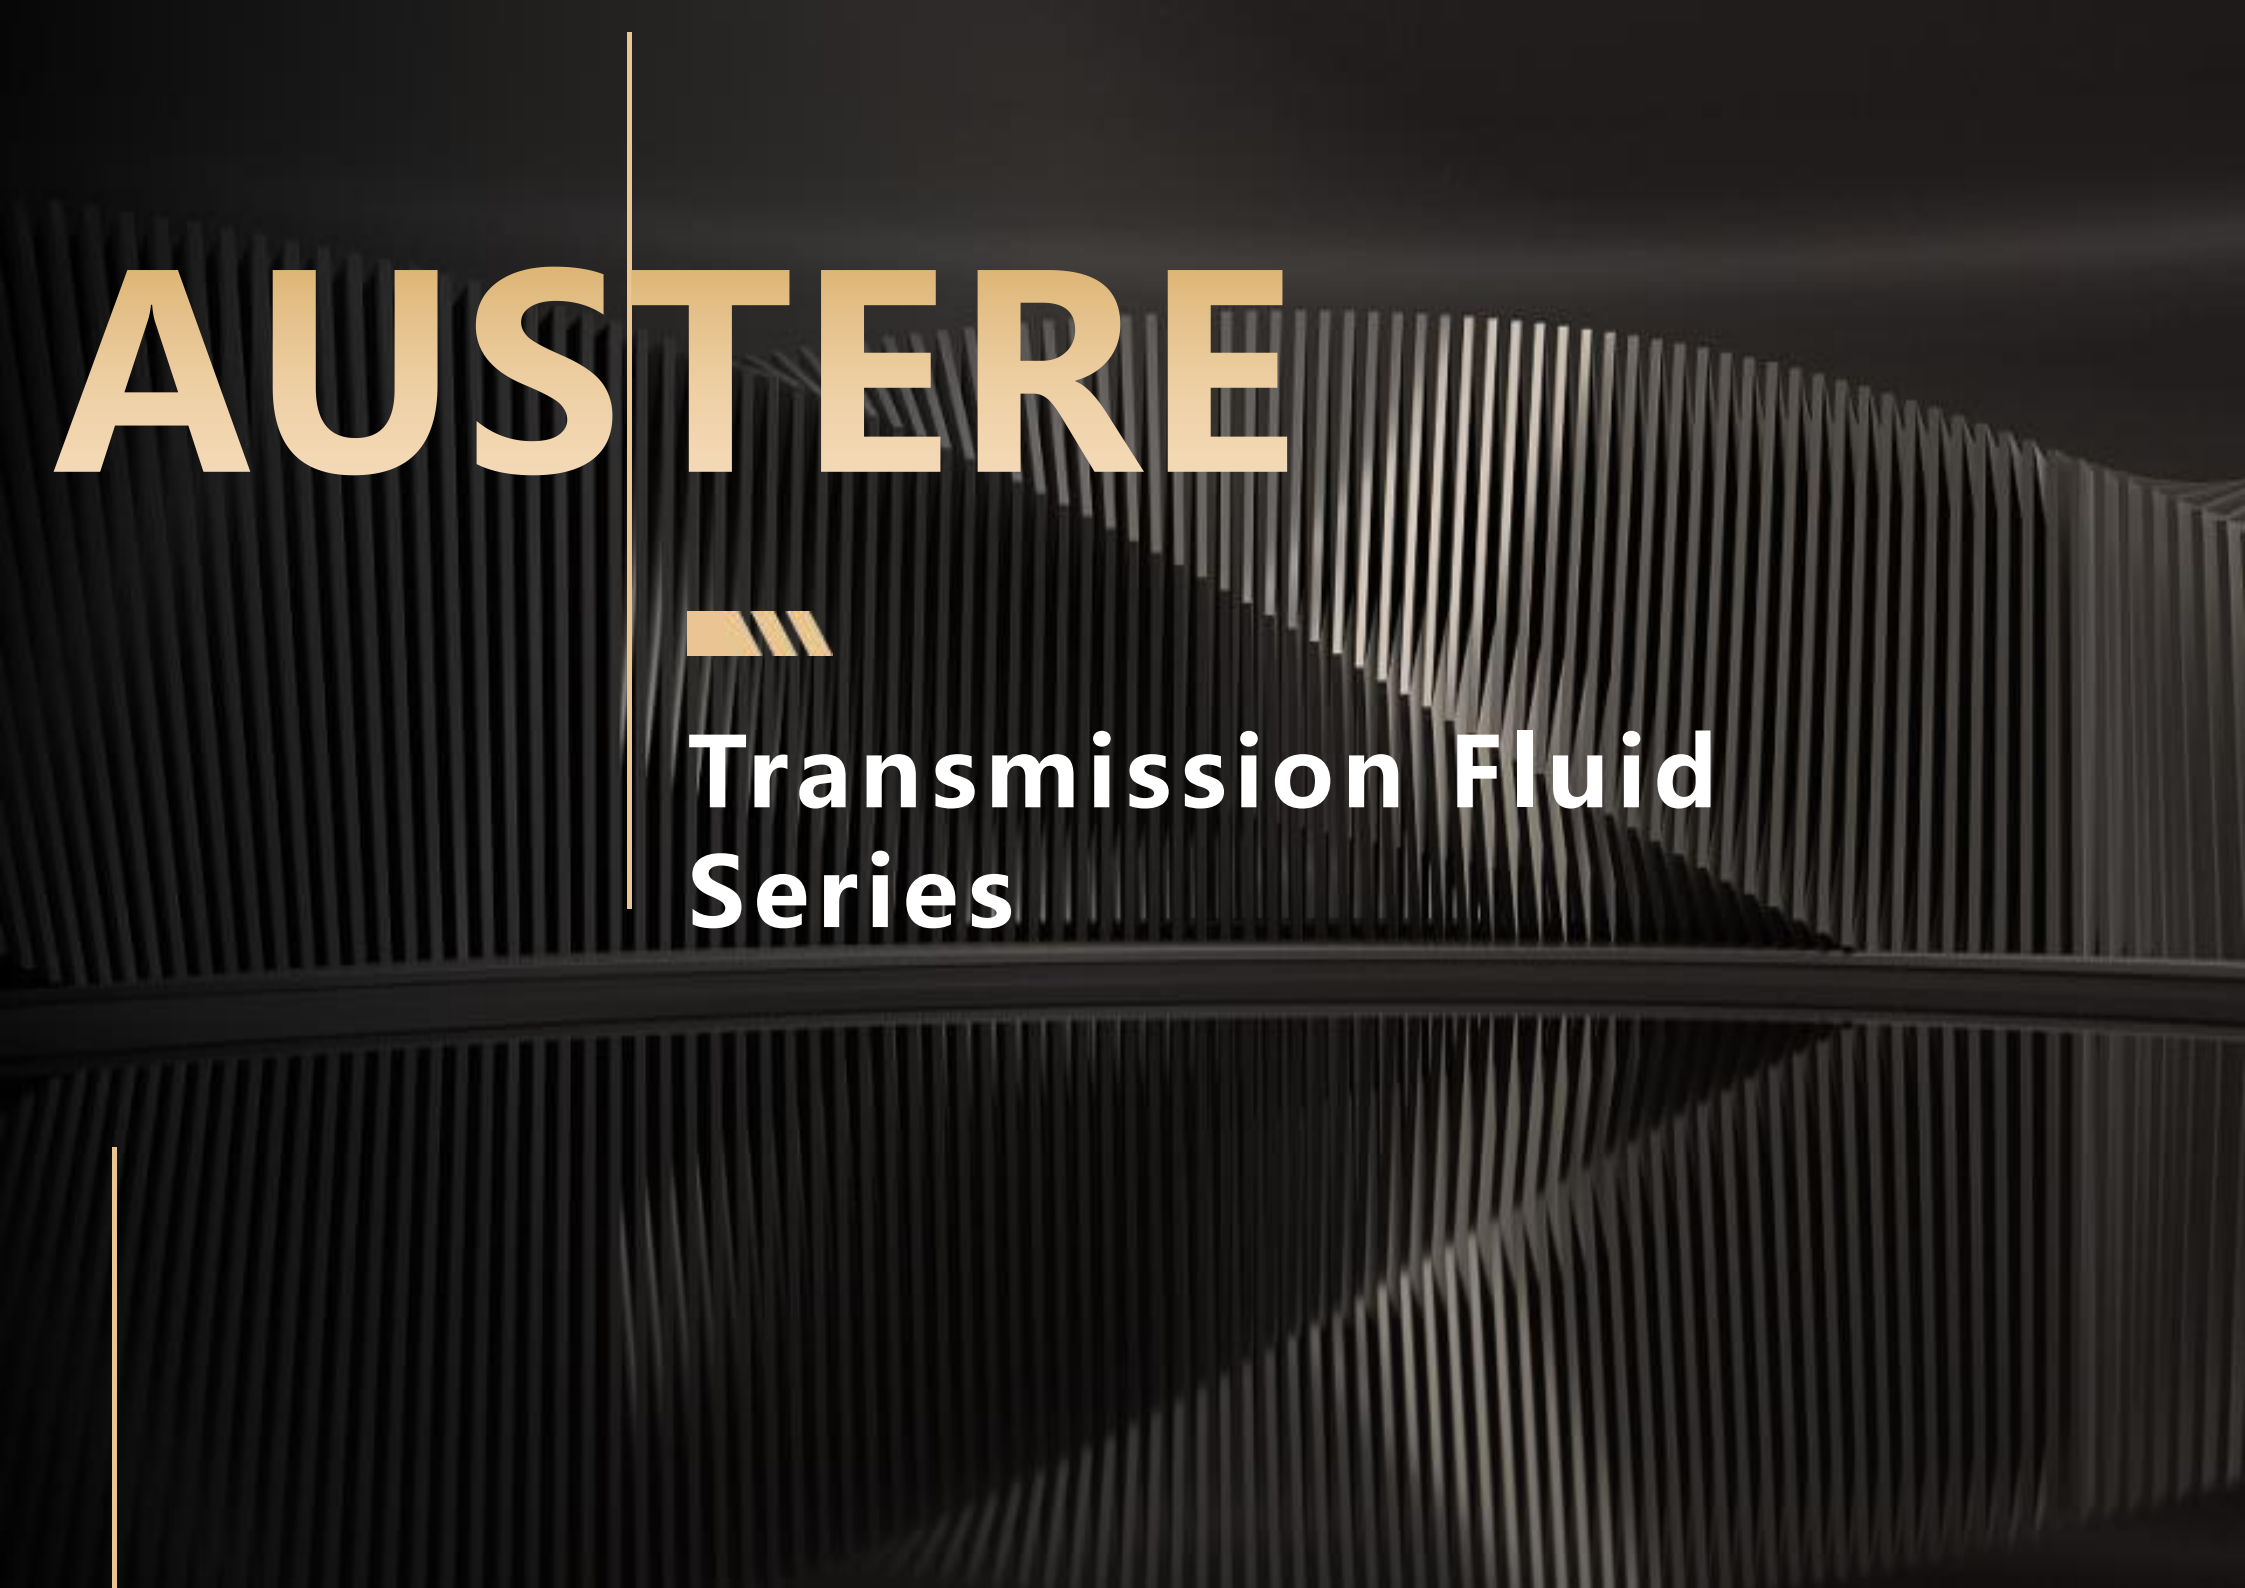

Applicable to all types of heavy-duty China VI and China V diesel engines, ensuring outstanding performance

Viscosity Grades

Available in 10W-30, 10W-40, 15W-40 and 20W-50, meeting standards for superior performance

AUSTERE

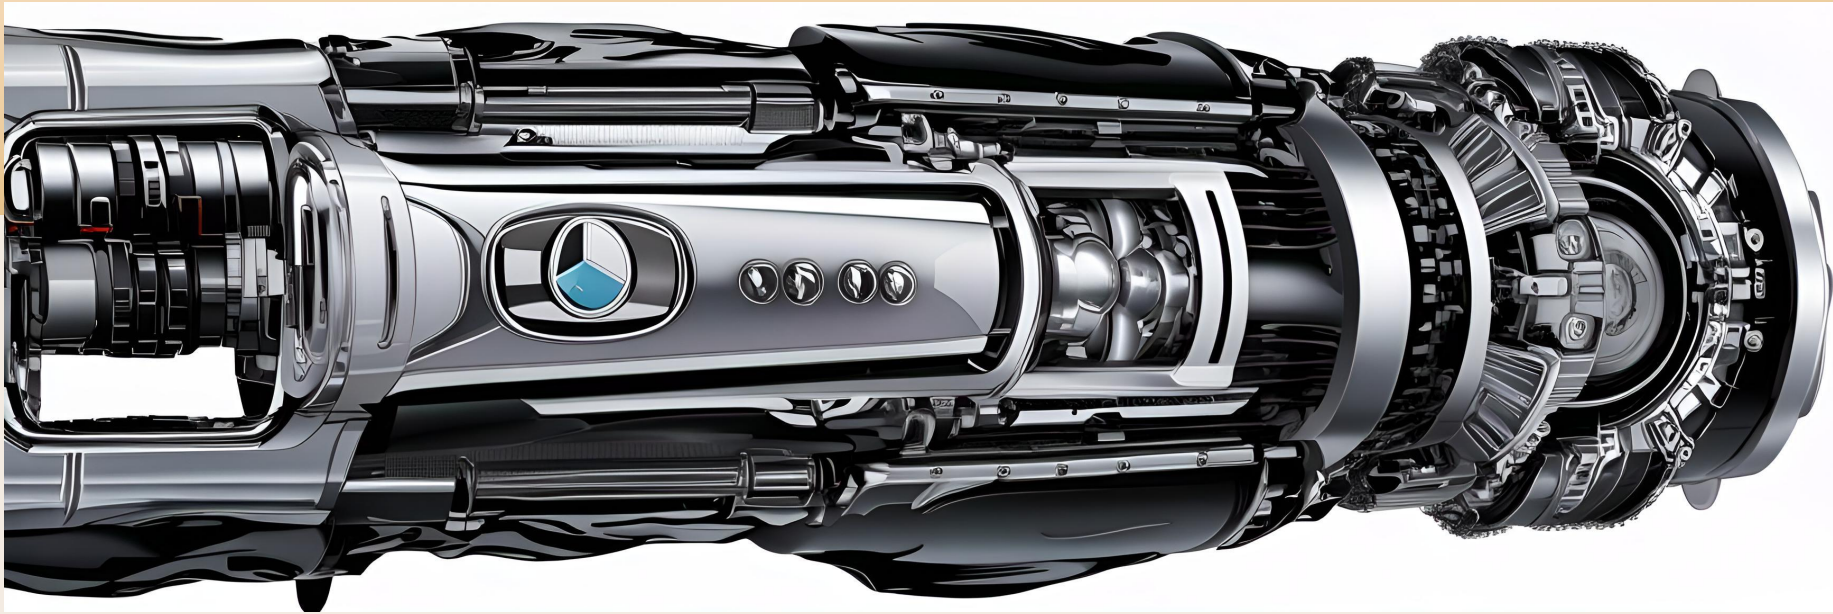

**Transmission Fluid
Series**

ATF5

ATF6

Excellent lubrication
Improvement of transmission
performance
Significant enhancement of
antioxidant property
Superior low-temperature fluidity

Properties:

- Excellent lubrication
- Improvement of transmission performance
- Significant enhancement of antioxidant property
- Superior low-temperature fluidity

Applicable Models:

Japanese and American, and some European models
(Toyota, Nissan, Honda, Audi, BMW, Volkswagen, etc.)

Automatic Transmission Fluid

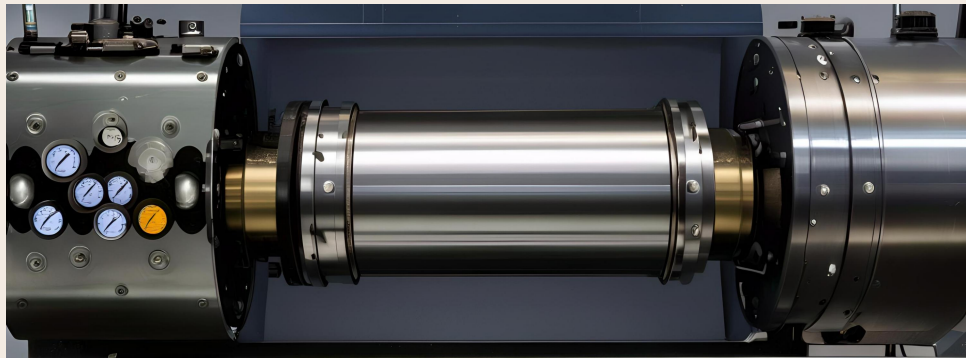

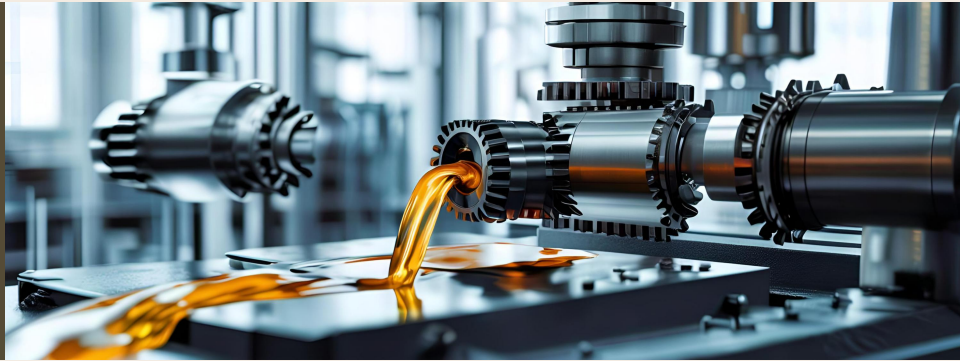

ATF8

ATF9

Lubrication and Performance

Excellent lubrication to improve transmission performance
Remarkable capabilities of anti-wear, anti-corrosion, and anti-friction

Outstanding oxidation stability, thermal stability, and cleaning property
Outstanding oxidation stability, thermal stability, and cleaning property material compatibility

CVT & DCT Transmission Fluid

Outstanding oxidation stability, thermal stability, and cleaning property

Superb wear resistance and shear stability to reduce steel belt (chain) wear and improve (SOS) the coefficient of friction

Superior low-temperature fluidity and excellent sealing material compatibility

High Performance Transmission Fluid

Applicable Models:

Audi, Honda, Toyota, BMW
and other stepless
transmissions

Mercedes-Benz, , Porsche,
Volkswagen, Volvo and
other dual-clutch
transmissions

AUSTERE

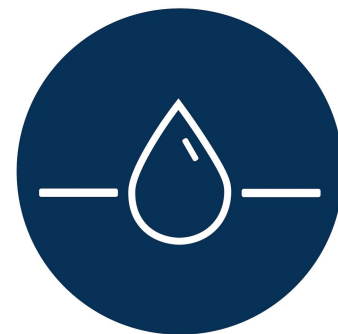

Industrial OIL

High performance ash-free anti-wear hydraulic oil

Unique ashless additive technology
ensures excellent oil performance
Excellent wear resistance, corrosion
resistance and rust resistance
Excellent thermal stability, hydrolytic
stability, anti-foaming and good air

Model: 32#, 46#, 68#,
100#, 150#

Size: 200L

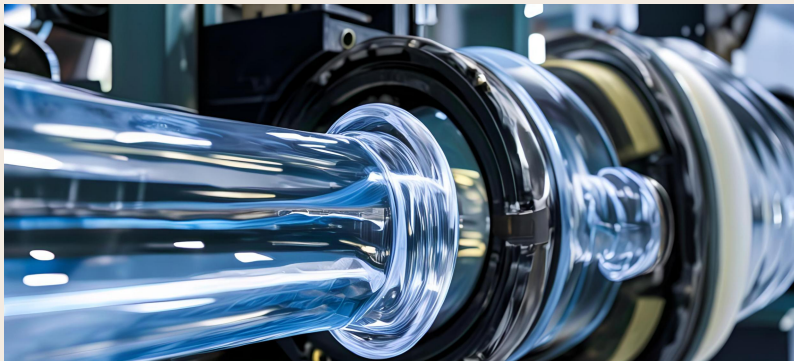

Hydraulic Transmission Oil 6#8#

Product Composition

Formulated with high-quality base oil and multifunctional additives for superior performance

Application Scope

Ideal for industrial, agricultural machinery, and various light-duty vehicles' hydraulic systems

L-CKE Worm Gear Oil

01

Product Composition

Made from deeply refined Class II and III hydrogenated base oils, formulated with sulfur-phosphorus extreme pressure agents

02

Extreme Pressure Performance

Demonstrates high EP anti-wear properties and excellent rust protection in harsh conditions

03

Thermal Stability

Prevents oxidation and sludge formation at high temperatures

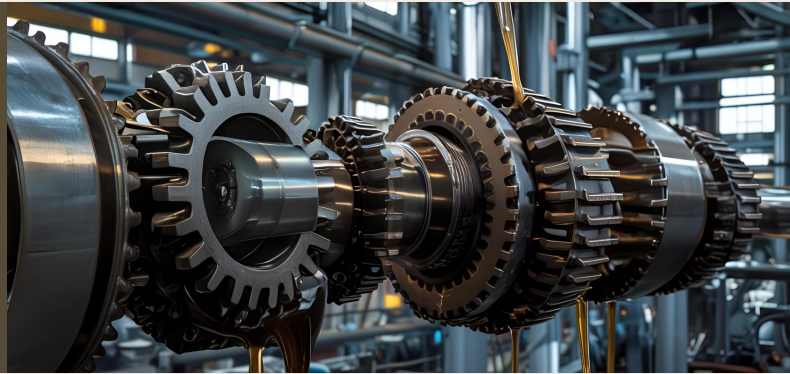

L-CKE Worm Gear Oil

Application

Suitable for heavy-duty gears, worm gears, and gears under shock and vibration loads

Packaging

Available in 18L and 200L containers

M Marine Medium Speed Engine Oil

refined using mineral base oil and a variety of
selected high-performance additives

Product Advantages

Anti-Oxidation and Thermal Stability
Cleaning and Dispersing Performance
Water Separation Performance

Model : 3030、4030、4040
Size: 200L
